Request for suspension is reviewed by the Project Coordinator in two (2) working days and submitted to the Department of Halal Accreditation (HADB) for approval. Approved form and the file containing related documents are submitted to the Secretary General. The Secretary General submits the file to HAK Board of Directors (BoD) with the recommendation.

Decision on suspension of halal accreditation is handled in at the first subsequent BoD meeting following the application for suspension. Duration of the suspension is also stated in the decision of the HAK BoD. The date of the final decision of the HAK BoD is the effective date of suspension decision.

In the first working day following date of notification of suspension to the HCAB, Project Coordinator makes the necessary revisions on the halal accreditation certificate, whose scope is partially or fully suspended.

Revised halal accreditation certificate is published on HAK website with the following explanations:

- In case halal accreditation is suspended for the full scope; “Suspended”
- In case halal accreditation is suspended partially; with emendations to remark suspended scopes
- In case halal accreditation is suspended at HCAB’s request; “At its own request”

3.1.1. Obligations of HCAB

HCAB’s obligation to fulfil the requirements of the decision starts with the confirmation of the notification of decision. When no confirmation is received, the obligation period starts three (3) working days after the notification is mailed to HCAB’s registered mail address.

HCAB, shall not:

- issue any report or document related to suspended halal accreditation scope,
- use HAK Halal Accreditation Mark on its documents or
- refer to HAK accreditation

If a report or document referring HAK Halal Accreditation Mark is issued between the date of decision on suspension and date of notification, HCAB shall cancel the documents as those are not covered in halal accreditation scope.

HCAB shall inform third parties to which it provides services within the scope of halal accreditation about the decision on suspension.

In the halal accreditation cycle, HCAB can request suspension for the same scope for only once. When requested more than once for the same scope, reduction of the scope procedure shall directly apply. If the HCAB is accredited for single scope, then withdrawal procedure shall directly apply.

3.1.2. Requirements for Lifting Suspension of Halal Accreditation

Maximum duration for suspending halal accreditation is six (6) months. If the HCAB requests for lifting suspension, it shall complete all necessary corrective actions within six (6) months and submits Nonconformity and Corrective Action Proposal Form to HAK. Within this period, if the HCAB does not perform any action, its accreditation shall be reduced for relevant scopes or withdrawn.

HCAB's Nonconformity and Corrective Action Proposal Form is conveyed to HAK Assessment Team by Project Coordinator. The Assessment Team evaluates the results of corrective actions and conducts an assessment to HCAB, if necessary. The scope of the assessment in this phase is limited with the reasons of suspension.

Suspension can be lifted upon decision of HAK BoD, providing that the assessment team concludes that the corrective actions are sufficient and appropriate, or the reason of the suspension is fully resolved at the follow-up assessment (if performed).

Otherwise, the scope of the HCAB's halal accreditation shall be reduced or withdrawn.

If the evaluations and follow-up assessments can not be performed in six (6) months' time due to HCAB-originated reasons, the relevant scope of the HCAB's halal accreditation shall be reduced or withdrawn.
